

Engineering Consultancy Industry in Developing Countries

Monenco Iran Consulting Engineers

March 2015

Contents

Foreword	5
Preface	7
Introduction	9
Chapter 1 Understanding Developing Economies	17
Overview	19
Economic Development In Developing Countries	20
An Introduction to Developing Countries	20
Concept of Economic Development	24
Development Drivers	26
Areas of Economic Development	27
Factors Contributing To Economic Development	28
Financial and Economic Factors	29
Social and Human Factors	38
Infrastructures	58
Energy	61
Administrative Issues	74
International Trade in Services Sector	89
Country Classification Methodologies	95
United Nation Country Classification Method	97
World Bank Country Classification Method	100
IMF Country Classification Method	102
An Empirical Country Classification Method	103

The Calculation Method	105
Chapter 2 An Introduction to the Engineering Consultancy Industry	107
Overview	109
Engineering Services Phases	110
Conceptualization	111
Feasibility Analysis	113
Data Gathering	115
Preliminary Engineering	116
Basic Design	117
FEED	120
Detailed Design	121
Design Review	124
Site Supervision	125
Training and Knowledge Transfer	129
Structure of the Consultancy Industry	129
The Importance of Consultancy Services in Sustainable Development	131
Providing Engineering Services in International Markets	134
Consultancy Market in Developed and Developing Countries	136
Chapter 3 Procurement Methods in Engineering Consultancy Services	141
Overview	143
Procurement Methods	143
Selecting a Procurement Method	144
Types of Procurement Methods	146
1. Open Tendering	146
2. Restricted Tendering	147
3. Request for Proposals	148
4. Two-Stage Tendering	152

5. Request for Quotations	155
6. Procuring from a Single Source	157
Bid Evaluation Process	158
Practical Implications	159
Values & Guiding Principles	160
Fundamental Elements in QCBS	160
Transparency in Procurement	164
Chapter 4 Engineering Challenges and Roles in Developing Countries	173
Overview	175
Identifying the Challenges in Developing Countries	175
Engineering and the Challenges of Developing Countries	177
Engineering and Sustainability	179
Role of Engineering in Sustainable Development	180
The Need for a Change in Engineering Practice	191
Challenges of Engineering Consultancy and Solutions	193
Chapter 5 Globalization and Rendering Engineering Consultancy Services in Developing Countries	199
Overview	201
Globalization	201
History of Globalization	201
Globalization and Economic Development	203
Effects of Globalization on Development	205
Positive Effects of Globalization	206
Negative Effects of Globalization	208
The Globalization of Engineering	210
The Impact of Globalization on Today's Engineering	211
Role of Engineering in Development of the Globalized World	213
Engineering and Building the Necessary Infrastructures in	

Developing Countries	217
Engineering and Encountering the Needs in Developing Countries	221
Engineering and Technical Capacity Building	223
The Need for a Change in Technical Capacity Building	226
The Need for a Change in Engineering Education	227
The Need for Funding in Capacity Building	230
Capacity Building in Developing Countries through Partnership	232
Chapter 6 Country Case Studies	235
Overview	237
Iran	238
Bangladesh	245
Nigeria	249
Iraq	251
Oman	253
Epilogue	259
Appendices	261
Appendix I - GNI per capita	263
Appendix II - GDP	265
Appendix III - GDP Growth and per capita Income	268
Appendix IV - The Contribution of Different Sectors in GDP	274
Appendix V - World Bank Classification of Countries (all members)	275
Appendix VI - United Nation Classification of LDCs	280
Appendix VII – IMF List of Low Income Developing Countries (LIDCs)	281
Bibliography	283
